

OUR TEAM

MANUELA CALDERÓN HERNÁNDEZ

Administrative director - Biologist - Botanist

PROFILE:

Manuela is a biologist from the University of Caldas and M.Sc in biological sciences from the National University of Colombia. Passionate about nature she began her first studies with birds and plants in 2010, participating in several research projects about seed dispersal and fruit production in tropical forests of the Cauca Valley and cloud forests in Otun Quimbaya Flora and Fauna Sanctuary, nowadays a real mecca for world-class birding in Central Andes. During the last five years, she has been a researcher and leader

of the Seed Conservation Department at the Bogota Botanical Garden and current researcher of the Colombian Agricultural Institute (ICA), allowing her not only to work for the conservation of Colombian ecosystems but also to strengthen her administrative and logistical skills. Manuela is co-founder of Go Birding Colombia and she directs the company as the perfect combination between tourism, biological research and nature conservation in Colombia.
